2 Type of change

New halogen-free thermoplastic material for fuse housing

3 Detailed description of change

The material of the fuse housing changes from normal thermoplastic material to a halogen-free thermoplastic material. There is no influence on form-fit-function of the OMF 63, with the exception of a slightly different color shade (see photos below). Fuses with the old thermoplastic material can still be used.

old thermoplastic material	new thermoplastic material
	

4 Reason of change

Product improvement

5 Released date

The change will be rolled-out starting ww 14/2013 and lasts approx 6 month depending on the variant.

6 Impact of change and recommended action

Form:	Yes	Change of the color shade only
Fit:	No	
Function:	No	
Production Site:	No	
Product Label:	No
